EXPERIENCE

Software Engineer

Aug 2022 – Present

Persistent Systems

Pune, India

- Designed and developed a real estate platform using the MERN stack - MongoDB, ExpressJS, ReactJS, and NodeJS.
- Implemented Redux for state management and Stripe for payment processing.
- Improved the search functionality by optimizing database queries and implementing Elasticsearch.
- Increased site speed by implementing caching and lazy loading ,resulting in a 50 percent improvement.
- Key Skills:
- Proficient in the MERN Stack - MongoDB, ExpressJS, ReactJS,and NodeJS.
- Experienced in Stripe for payment processing .
- Knowledgeable in Elasticsearch for optimizing search functionality.
- Familiar with AWS for deployment and continuous integration and deployment.
- Skilled in implementing responsive and user-friendly design.
- Technology : JavaScript, React.js, HTML ,CSS, Bootstrap.

Research And Development Intern

Aug 2021 – July 2022

PTC Software

Pune, India

- Designed and executed end-to-end testing scenarios to ensure the quality of the web application.
- Developed test scripts using Java programming language and integrated them with Jenkins for continuous integration.

PROJECT

IMDB Clone — ReactJS, Node.js, Material UI,

- Implemented the front-end interface using ReactJS, React Router and Material UI.
- Built the pagination and search functionality using React components and state management using Redux.
- Used Firebase Authentication to handle user authentication and Firestore to store movie data and user reviews.
- Managed state using Redux ,ensuring that the application is scalable and maintainable.

Meet-Oyo — React, Java, Spring Boot, Hibernate, MySQL

- Developed real time clone of Oyo-rooms as part of Spacebasic Internship assessment.
- Implemented modular program for increasing extensibility of custom components.
- Provided different privileges based on user types(superadmin, operator, admin, user).

EDUCATION

PES Modern College of Engineering Pune

Jun 2019 – Jun 2022

B.E. - Information Technology, 9.60/10 CGPA.

Pune, India

ACHIEVEMENTS

- Completed Coding Club Certification course for Data Structure and Algorithms — Solved 100+ problems on leetcode.
- Hackerrank Certification for **Javascript and Python**
- Winner in Kiran Girls Scholarship of Persistent Systems

TECHNICAL SKILLS AND COMPETENCIES

Programming Languages : Java, Javascript, C++

Framework and Libraries : HTML, CSS , React.JS, Express, Node.js

Database : MySQL ,MongoDB

Coursework : Object Oriented Programming, Operating System, Computer Network
